

# mr.steam@your fingertips

Leave your pencil at home– with Mr. Steam’s new mobile sizing app now available for most smartphones.

Calculating sizing has never been easier thanks to our free steam shower sizing app for iPhone®, iTouch®, iPad®, Blackberry® and most smart phones. Scroll through sizing information whether on a jobsite or the showroom to specify a steam generator for your next project.

The new app allows users to quickly enter room dimensions, materials (e.g., tile/stone/marble), as well as style and finish options through a series of pull-down menus –all on their smartphone. Once the preferences are entered, the information and prices can be emailed to a designer or contractor.
